📍 Alexandria,Egypt

SUMMARY

Data scientist with a degree in computing and data science from Alexandria University and a passion for innovation. Experienced in using Python, R, SQL, and Excel to perform data analysis and machine learning on various projects, such as sentiment analysis, text classification, and recommender systems. Looking for an opportunity to apply my data science skills and knowledge in a dynamic and rewarding environment.

EDUCATION

Bachelor Of Computer Science majored in Data Science

Alexandria University

📅 2019 - 2023

EXPERIENCE

Data Science Intern

Sprints

📅 2022

- "I completed an immersive Data Science internship, mastering Python, statistical analysis, and data visualization. The curriculum covered AI, machine learning, and deep learning, culminating in a comprehensive Capstone Project, showcasing my skills in time series analysis, anomaly detection, and model deployment."

PROJECTS

Canada Refugee Statistics Exploratory Data Analysis

🌐 <https://github.com/Ossman2000/Canada-Refugee-Statistics>

In this project we perform Exploratory Data Analysis (EDA) on UNHCR Refugee Statistics for Canada from 2012-2022.

SKILLS

Data Science

python R SQL PowerBI Tableau

git/github java oop SQL

html css javascript php nodejs

TRAINING / COURSES

Data Cleaning and Preprocessing
with pandas
